MEMORANDUM FOR: Director of Communications
Director of Information Technology
Director of Security

FROM: William F. Donnelly
Deputy Director for Administration

SUBJECT: Comments About NTISSC Recommendations by Offices of
Communications, Information Technology and Security

REFERENCE: DDA 87-2433, dtd 10 Nov 87, Subject: NTISSC Recommendations

1. Enclosed are three documents prepared at my request by OC, OIT and OS reacting to the recommendations cited in the Third Annual Assessment of the Status of Telecommunications and Automated Information Systems Security Report of the NTISSC. Naturally, they overlap.

2. Please insure that employees in the units in each of your organizations that are concerned with this topic receive this material and are familiar with it. For example, all should know what is going on with regard to the STU-III program.

3. The field of telecommunications and automated information systems security intrudes into many organizations in the Agency. Communications between those offices are sometimes incomplete. By circulating these three documents together we may be able to some degree to convey across organizational lines where we stand on this issue.

William F. Donnelly
